

EDUCATIONAL WEBINAR

SB 169 Authorizes \$2.0 Billion for Student Housing - What Does it Mean for Higher Ed and AEC?

Tuesday, January 25, 2022 • 8:30am-10:00am • Virtual

PROGRAM SUMMARY

On September 23, 2021, Governor Newsom signed Senate Bill 169 (SB 169), the postsecondary education budget cleanup trailer bill, which appropriates \$2.0 billion, for the Higher Education Student Housing Grant Program for CSU, UC and CCC systems. The program, with the purpose of providing affordable, low-cost housing options for public postsecondary students in California, will provide one-time grants planning and construction funding. The moderator of this session is a co-leader of development advisory firm Brailsford & Dunlavey's higher education practice, Jeffrey Turner, who will provide an overview of P3 market activity from the firm's annual "State of the Industry Report" and collaborate with panelists to discuss the following

- What are the motivational factors for having student housing at college campus?
- What would be the alternative delivery methods public agencies can utilize to deliver their projects more efficiently?
- What are the additional expertise and resources higher education need to have in order to get such projects planned and implemented at their campuses? How are the architectural, engineering, and construction industry reacting to this great initiative?
- Would ongoing issues associated with construction prices, supply chains and labor shortage slow down these projects?

EMCEE

Heather King, Program Controls Manager
SafeworkCM / CMAA Education Chair

PROGRAM PRICE

\$45 Member
\$75 Non-Member

MODERATOR

Jeffrey D. Turner, Executive Vice President
