EDUCATIONAL WEBINAR

Deep Dive into Procurement Methods and Project Delivery: Design Build, Progressive Design Build, CMAR, CMGC and Traditional Delivery Methods

Monday, August 8, 2022 • 10:00am-11:30am • Virtual

PROGRAM SUMMARY

The design and construction industry continues to evolve with regard to project delivery methods. This educational seminar is intended to empower owners, suppliers, consultants, and subcontractors with a better understanding of how the prevailing projects and procurements are structured. The panelists will present illustrations and information to help the construction industry to learn how to best support each delivery method, how risk is addressed and opportunities and limitations of each one. There will be Q&A with the panelists after the presentation.
