## SUSTAINABILITY WEBINAR

### IE Community Colleges' Approach to Tackle Climate Crisis

Friday, February 26, 2021 • 9:00am - 10:00am • [Virtual Link to be Provided](#)

#### PROGRAM SUMMARY

Academic facilities operations and transportation fuels contribute a significant portion of the overall educational campus's greenhouse gas emissions. The impetus behind the educational facilities to reduce their greenhouse gas emissions is largely driven by the need to mitigate the irreversible effects of climate change and preserving natural resources for our current and future generations. To better serve the future generation, community colleges are engaged in planning and implementing a path towards Carbon Neutrality.

Representatives from Chaffey College, Riverside Community College District and San Bernardino Community College District are set to share the details of their work on Sustainability & Environmental Responsibility. Join this webinar to learn:

- Solar Master Planning
- Zero Net Energy Master Planning
- EV Infrastructure Planning
- Electrification

#### EMCEE

Farrah Farzaneh, Director, Facilities Planning,  
Emergency Management & Construction  
San Bernardino CCD

#### SPEAKERS

Troy Ament  
Executive Director, Construction & Facilities  
Chaffey College

#### PROGRAM PRICE

\$45 Member  
\$75 Non-Member  
Free to CMAA Owner Members

Hussain Agah  
Associate Vice Chancellor, Facilities Planning &  
Development  
Riverside CCD

Leigh Anne Jones  
Higher Education Leader | Principal  
DLR Group

#### SPONSORSHIP OPPORTUNITIES

\$750 Platinum  
\$500 Gold  
\$250 Silver

Yash Patel  
Sustainability & Energy Manager  
San Bernardino CCD
